

For Immediate Release

Designer Hotel M Social Hosts Top Architects From Indonesia

Singapore, 17 January 2017 – As part of a collaborative effort with Singapore Tourism Board, Archinesia, Indonesia's network of top architects, made an architectural trip to Singapore to view some of the city's designer buildings. Among the shortlisted designer buildings that the group viewed was M Social Singapore, the winner of the Best Hotel Architectural Design and Best Hotel Interior Design categories for the 2016 South East Asia Property Awards.

Designed by style guru Philippe Starck, the 293-room riverside hotel was the perfect venue for Archinesia's architects to experience Singapore as the design hub of Southeast Asia. The Archinesia group stayed at M Social from 13 to 15 January.

During their time in Singapore, the group posted photos of the places they visited on their Instagram page. Every day, three of the most beautiful photos were selected as winners.

"We are delighted to work with Archinesia to promote Singapore as a designers' destination of Southeast Asia. Through their Instagram photos, the design elements of M Social Singapore and other Singapore attractions are highlighted and shared with everyone," said Mr Tan Kian Seng, President of Asia for Millennium Hotels and Resorts.
