12. ORDINARY RESOLUTION 8

AUTHORITY FOR DIRECTORS TO OFFER AND GRANT OPTIONS TO ELIGIBLE PARTICIPANTS UNDER THE HONG LEONG FINANCE SHARE OPTION SCHEME 2001 (THE “SOS”) OTHER THAN PARENT GROUP EMPLOYEES AND PARENT GROUP NON-EXECUTIVE DIRECTORS AND TO ISSUE SHARES IN ACCORDANCE WITH THE PROVISIONS OF THE SOS

- 12.1 The Chairman informed that Resolution 8 would empower the Directors to offer and grant options to eligible participants under the SOS other than Parent Group Employees and Parent Group Non-Executive Directors and to issue shares in the Company pursuant to the exercise of such options subject to such limits as prescribed in the SOS.
- 12.2 The Chairman reminded Shareholders on the voting restrictions pursuant to Rule 859 of the Listing Manual of SGX. Shareholders eligible to participate in the SOS, who were not Parent Group Employees or Parent Group Non-Executive Directors, must not vote on this resolution unless they were acting as proxies for Shareholders who did not have any personal interest in this resolution and who had given specific instructions on how their votes were to be cast.
- 12.3 The Chairman proposed the following motion:

“That approval be and is hereby given to the Directors to offer and grant options in accordance with the provisions of the Hong Leong Finance Share Option Scheme 2001 (the “SOS”) to eligible participants under the SOS other than Parent Group Employees and Parent Group Non-Executive Directors (each as defined under the terms of the SOS) and to allot and issue from time to time such number of shares of the Company as may be required to be issued pursuant to the exercise of the options granted under the SOS, provided that the aggregate number of shares to be issued pursuant to the SOS shall not exceed 15% of the total number of issued shares of the Company from time to time.”

13. Q&A SESSION

As all the Resolutions had been proposed, the Chairman proceeded to take questions from the shareholders and/or their proxies. A summary of the questions and answers is set out below:

- 13.1 A shareholder thanked the Chairman and the Board for holding the AGM in a physical format this year. He congratulated Management for the sterling performance for FY 2022 achieved amidst a challenging business landscape.
- 13.1.1 Noting that HLF was rated as ‘top 1000 World Banks’, ‘top 100 Asean Banks’ and ‘Best Performing Bank’ in Singapore, he would like to know if HLF is considered as a bank. In the wake of inflation and rising interest rate fluctuations, he noted that some banks are experiencing a liquidity squeeze and even risk of collapse in some countries. He anticipated that the economic environment would remain challenging for 2023 and in this regard, he would like to know what safeguards the Company have put in place against a liquidity squeeze. He also enquired on the Company’s gearing ratio.

Minutes of the 63rd Annual General Meeting held on 27 April 2023 – cont'd

Additionally, given that the majority of HLF's customer base is retail, he would like to know what measures HLF has put in place to ensure that it would not experience a run and that its customers would continue to stay on.

13.1.2 In response to the shareholder's first question, the Chairman said that HLF is not a bank, and that the rankings were done by independent third parties.

13.1.3 Responding to the second question, the CFO said that customer deposits formed the Company's major source of funds. As at the end of 2022, the Company did not have any outstanding bank borrowings. Whilst the Company could tap on customers' deposits, it has credit lines with various bankers on standby to support short-term liquidity needs if required.

The Company also maintains a well-diversified liquid asset portfolio comprising fixed income government securities as well as money market placements. The Company's gearing ratio is low. As presented earlier, the Company has met its funding requirements from customer deposits and shareholders' funds, each making up 85% and 14% respectively of the source of funds.

13.1.4 With regard to the risk of a bank run, the Chairman said that financial institutions in Singapore, including the Company, are regulated by the Monetary Authority of Singapore ("**MAS**") and there are regulatory requirements that the Company is required to comply with and rigorous supervision by the MAS to mitigate such risk. With retail customer deposits as the major source of funding, the Company strives to serve customer needs and continue to build and maintain good relationships with its customers.

13.2 A shareholder referred to page 90 of the AR and queried the reason for the substantial increase in the non-performing loans ("**NPLs**") for the building and construction industry from \$15.4 million to \$129.3 million. Referring also to the latest round of property cooling measures announced by the Government earlier that day, which included an increase in additional buyer's stamp duties payable for second and third properties purchased by Singapore citizens and permanent residents, she would also like to know the impact that these measures would have on HLF's business going forward.

13.2.1 The Chairman said that the Company's NPLs were largely collateralised. He assured shareholders that the loan portfolio was closely monitored by Management. As for the impact of the latest round of cooling measures on the Company's business, he believed that the cooling measures would affect all banks and financial institutions. However, he opined that it would be too premature at this stage to comment on the impact to HLF. Management would continue to exercise prudence in its lending to customers.

13.3. A shareholder would like to know whether the increase in net interest income was due to an increase in interest rates, and if so, whether the rise in interest rates was expected to continue in the current year. He also noted that HLF's share price had been underperforming and is currently trading at around \$2.50 per share, well below its net asset value ("**NAV**") of \$4.55 per share. He asked if the Board had any initiatives that could help to enhance shareholders' value with a view to bringing the share price up, for example, by paying out a higher dividend.

13.3.1 The Chairman said that the share price was beyond the control of the Board and that this would be dictated by the share market. As regard interest rates

Minutes of the 63rd Annual General Meeting held on 27 April 2023 – cont'd

fluctuations, he said that Management would monitor closely. He added that global economy continues to be challenging but the Company would strive its best to maintain and improve its performance year on year.

13.4. A shareholder asked if the Company's net interest margin and NPLs were comparable to those of the banks.

13.4.1 In response, the President said that the Company faces stiff competition from the banks. However, the Company tries its best to offer attractive rates for its customers, both depositors and borrowers. As such, the net interest margins could be lower than the banks. The Company would continue to reduce operating costs and compete for deposits at reasonable rates to fund its loan portfolio.

13.4.2 He added that the Company's NPLs remained stable. The increase in NPLs was attributed to one loan account which was secured with collateral. He was confident that the loan would be repaid with the proceeds from the sale of the collateral, and this would bring down the NPLs going forward.

13.5. A shareholder congratulated the Board and Management for the Company's good performance for FY 2022. However, as pointed out by another shareholder earlier, the Company's share price had been trading at a discount to its NAV of \$4.55. He referred to a recent article in The Business Times which suggested to the Board to consider selling HLF to another financial group, or merging with one of the local banks to realise its net worth. He asked if the Board had any thoughts on that suggestion.

13.5.1 The Chairman responded that the Company had, over the years, established a niche market serving the small and medium-sized enterprises and it had been doing very well in the market. Although its share price continued to trade below its NAV value, he believed that the Company would continue to perform well. Therefore, he did not believe that it would be in the interest of the Company to sell to or merge with a bank.

14. POLLING

14.1 As all the items of the agenda in the AGM Notice had been dealt with, the Chairman reminded the shareholders to cast their votes on the Resolutions, if not already done so.

14.2 Voting on the Resolutions closed three minutes from the end of the Q&A session and the poll voting results, duly verified, were set out below:
